*3D Sculpture*

*Painting in oils & acrylics*

*Clay /mixed media*

*Mixed media*

*Clay, Acrylics and Modroc (mixed media)*

## **Some comments from our Yr. 11 Art pupils...**

*'I really enjoyed my time at Rivers because I have excelled in my subjects inc Art. My work skills have improved significantly thanks to my teacher at Rivers. My Art teacher has always motivated me to do my best and to succeed in life, she has always pushed me forward ,so thank you for helping me do my best ,Thankyou Jenny and Tracey'* pupil G.E

*'I liked Art because the teachers support you enough to get the work complete. They help you to the point where you can achieve it all on your own'* . pupil R.F

*'At the start of coming into art fresh, was really hard for me as I only knew how to draw cartoons. I never knew anything about formal elements and how to create things like that, and art taught me a good technique. I also got help by using the grid method to help me draw pictures and then my next piece I learned that picking out parts of a image and drawing it the way I see it helped me .I think art brings you through all key points and tips that main stream never taught.'* pupil D.Sw

*'This year I done many pieces of work. I found some pieces challenging and others not, for example the Monet painting I created. I enjoyed my art lessons they were fun and the teachers are very helpful if was stuck with my work'*. pupil J.H

*'I really enjoyed GCSE Art, I learned how to draw portraits and miss taught me loads of new techniques that I never knew before'* Pupil M.M
