## **Rewards and Sanctions**

### **Rewards**

Rivers ESC provides opportunities for all pupils to experience success.

Rewards are given by staff where effort, achievement and progress have been demonstrated over a period of time.

### **Sanctions**

Rivers ESC has a positive ethos, with an emphasis on pupils making progress in behaviour and learning.

There are clear boundaries of acceptable behaviour. Inappropriate, disruptive and anti-social behaviour is discouraged by all staff in lessons and around the centres. Clear and fair consequences are shared with pupils.

- The class teacher supports pupil to resolve problems and refers to senior colleagues if the matter requires further intervention.
- Disruptive behaviour is challenged when it occurs or as soon as possible afterwards.
- If a pupil cannot be supported to resolve the difficulty in the lesson, they will be supported to get back on track away from the group with the aim of rejoining the lesson as quickly as possible.
- Sanctions are to be proportionate to the behaviour. Reasons for the unacceptable behaviour will be made clear to pupils.  
Most low level behaviour in the classroom will be resolved with in the classroom through appropriate classroom management techniques.

Behaviour is tracked through Go4Schools. Incident reports are completed for serious incidents and referred to senior colleagues.

### **MONITORING**

All disruptive behaviour in lesson time is recorded.

### **PHYSICAL INTERVENTION**

Physical intervention will only be used if all else has failed. Staff will have used all behavior management strategies (ie conflict resolution, de-escalation, solution focused etc) in place to diffuse escalating behaviours. However, if a pupil's behavior escalates to a level of violence that causes risk to the safety of themselves or others, a physical intervention may need to be used.

It is considered that physical intervention of pupils will only normally be necessary in a very small number of incidents. All incidents of physical intervention will be recorded and a plan will be established with the aim of reducing the likelihood of a similar event occurring.
